

# RISE UP

## AGAINST CHILDHOOD CANCER September 2023

Become a Rise Up Partner Today

Make A Difference In The Life Of a Child Fighting Cancer

Here are a few examples of programs funded by Fabulous Faith's Foundation Rise Up Partners

\$53,000 provided 53 families the financial assistance they needed since our last Rise Up Campaign. Because families need to focus on fighting cancer not financial hardships.

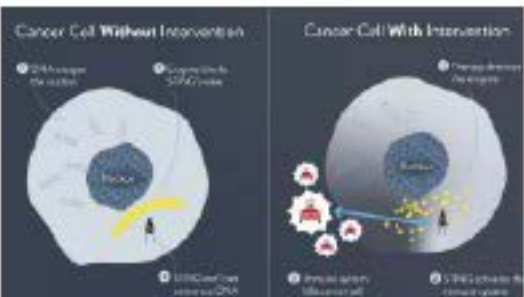

Share-A-Night grants provide the essentials for all of the specially equipped Bone Marrow Transplant Suites at RMH Ft Worth.

Food Truck Friday provided meals for every family at Ronald McDonald House for 2 months.

Annual support for the Journey program Sibling Bereavement and Mental Health Counselor at Seattle Children's Hospital

**Cancer Cell Without Intervention**  
• DNA damage (no repair)  
• Suppression by STING (no response)  
• STING (no response)  
• STING (no response)

**Cancer Cell With Intervention**  
• DNA damage (no repair)  
• STING (no response)  
• STING (no response)  
• STING (no response)

Funding for cutting edge pediatric cancer research like the STING project. Shorthand for "stimulator of interferon genes," STING is a feature of the immune system: a sensor that triggers an immune, cell-killing response. Dr. Sweet-Cordero's research, aims to discover if something about osteosarcoma can be used to activate this pathway. "This is a very novel approach," says Dr. Helman. "It essentially uses osteosarcoma's chromosomal instability as an Achilles' heel of sorts to stop tumor growth and spread. It is preliminary but it is very exciting because it is a completely different approach."

Annual support for Chief, the best Love and Comfort Officer on 4 legs!!
